Herbicide Branch

**Subject: Submission of a summary/reference list of VaporGrip Xtra®
volatility studies previously submitted to EPA in support of 2020
registration of XtendiMax® With VaporGrip® Technology (Alternate
Brand Name: M1768 Herbicide), EPA Reg. No. 264-RERN**

Dear Emily Schmid,

On July 29, 2020, Bayer CropScience LP (Bayer) and the U.S. EPA engaged in discussions regarding the 2020 registration of XtendiMax® With VaporGrip® Technology (M1768 Herbicide), EPA Reg. No. 264-RERN. In those discussions, it appeared the Agency may not be aware of certain submissions that Bayer made on and before May 1, 2020 regarding our volatility reduction agent VaporGrip Xtra® (MON 51817). For convenience and to ensure EPA is aware of the body of data submitted to date, Bayer herein provides a reference list and summary of those prior submissions. As previously discussed and in light of the data contained in those submissions, which collectively consist of nineteen volatility studies, Bayer requests EPA mandate the addition of VaporGrip Xtra (and other volatility-reducing agents) to dicamba tank mixes in the upcoming registration.

This application is being submitted electronically and contains the following documents:

- This cover letter
- Application for Pesticide Registration – EPA Form 8570-1
- Public Data Matrix (8570-35)
- Agency Data Matrix (8570-35)
- Transmittal Document
- Report: Reference List of Nineteen VaporGrip Xtra® Volatility Studies, MRID No. **51226701**
